BIOREMEDIATION OF SOLID WASTE

Distribution of Solid Waste in the United States¹

TCP Feedstocks

- *Agricultural*
Plant or animal by-products including cellulosic material; poultry, hog or cattle offal; bones, litter, grease and manure.
- *Industry*
Tires, mixed plastics and used oils.
- *Municipal*
Food waste, fats, oils, greases, paper and plastics.

TCP End-Products

- *Bio-derived Renewable Diesel Fuel Oil*
High value oil, which can be sold to industrial power users.
- *Liquid and Mineral Fertilizers*
High-value fertilizers to rebalance macronutrients and replace depleted micronutrients in the soil.

¹ Gas Research Institute and American Gas Association, "Solid Waste Management," June 1996.
